STAY INFORMED. STAY HEALTHY.

Stay Informed. Stay Healthy.

Keeping your food safe to eat and your water safe to drink is our goal. The staff of the Toledo-Lucas County Health Department (TLCHD) works diligently to protect your community. Whether behind the scenes completing an inspection or out in the public promoting health improvement, the TLCHD is here for you! Working hard to improve the health of our community members, we provide a variety of medical clinics, outreach programs, and other services throughout Lucas County.

Community Outreach

The Toledo-Lucas County Health Department’s Outreach programs uphold our commitment to enrich Lucas County by providing services and programs available to all residents in our community. Many services are offered and available to everyone, at any age, even during pregnancy. TLCHD’s Outreach programs are conveniently located throughout the various neighborhoods in addition to the Health Department locations.

Environmental Health

Community members of Lucas County expect their food, water, and air to be safe. The Environmental Health Division ensures this through rules and regulations while promoting the long-term health and safety of residents. TLCHD sanitarians provide education through training, inspections and outreach to enhance public health in the community.

Inspections, Licensing and addressing issues for:

- Food Facilities
- Wells
- Home Sewage Treatment Systems
- Many other environmental matters

Enviromental Health and Inspections
