The Cost of Poverty Experience

41 Million Americans are affected by poverty.

Think Tank and the CareSource Foundation partnered to develop COPE, which was co-designed with low-income individuals who shared their story to give participants a glimpse into the lives of low-income individuals and families living in our community. Their stories go beyond the stereotype of what is seen on the news or written about under-resourced individuals. Also captured in the experience is the role that the broader community plays in their interactions with low-income families.

“I have been through hundreds of meetings this year. This is one I will never forget.”
