

# Maternal & Child Transportation Resource Guide

Everyone, at some point in their lives, experiences transportation issues. We care about your ability to get to healthcare appointments. All Medicaid providers offer transportation services to healthcare appointments. Some of the following transportation providers will bill your insurance, depending on the transportation provider and the insurance. You must call your insurance company **PRIOR** to reserving a transportation service to see if you qualify.

**Disclaimer:** Information in this resource guide may change. It is the individual's responsibility to verify with transportation providers for all services.

**Managed Care Plans:** These plans are listed in bold throughout the resource guide. Most managed care plans participate in transportation reimbursement for clients or family members for medical appointments. Please contact your managed care plans to explore reimbursement benefits.
